WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for the People Who Work in Redwood City.

Most Redwood people work every day in some strained, unnatual position—bending constantly over a desk, riding on jolting wagons or cars, doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs.

James E. Brown, contracting painter of No. 17 Capp street, San Francisco, says: "A man at my occupation required a good sound back, if that part of his anatomy is weak, lame or aches every move of the brush brings torture. Besides, the ingredients used in my calling act directly on the kidneys and aggravate those organs. The first box of Doan's Kidney Pills brought me such relief that I bought several more and continued the treatment until the trouble disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's, and take no other.

A monkey belonging to Henry Offermann marched into the courthouse Wednesday, causing consternation among the officials and young lady clerks. The monkey soon impressed everyone that his visit was not to do injury, but entertain. In the Tax Collector's office he went through all sorts of antics on the rings. Tiring of this pastime he sauntered over to the Clerk's office and at once took a great shine to Joseph H. Nash. He jumped upon him and went through all the osculatory movements of one who had met a long-lost friend. The monkey was finally arrested by Deputy Sheriff Frank Bartlett and returned to its owner.

The following communication was read from A. M. Robertson and same was accepted and filed.

Mr. John MacBain, Supervisor San Mateo County—Dear Sir: My attention has been called to a report of Monday's meeting of your board, in the "Call". I wish to state emphatically, that I did not reflect, and have not reflected upon the integrity of the members of the Board of Supervisors, neither at that meeting nor since; nor did I comment upon the matter of Mr. Dingee's having any influence upon the board. Not being acquainted with the addresses of other members, I ask you to make known to them the above statement. While I object to the attitude of your board, I know of no reason why you are not entitled to your opinions just as honestly as I am to mine. I am firmly convinced that the old road is the best; your board thinks otherwise. If the old road can be retained, I will work to that end, but not by intimating dishonesty on the party of members of the board.

Very truly yours,

A. M. ROBERTSON.

The following letter was read from W. J. Dingee and same was ordered filed.

Gentlemen:—In the matter of the new road, over which there has been so much controversy, I desire to say that, in suggesting and building the new road, I was prompted only by a desire to improve conditions with respect to my own property as well as to all the property in the vicinity.

On the road your proposed abandoning, the maximum grade is nine per cent, whereas the maximum on the new road is a trifle less than seven per cent. I feel that I have done everything I agreed to do in the construction of the road. The bridges, culverts, etc., are of a permanent nature and insure a good road at all seasons of the year. I venture to say that you will have difficulty in finding twelve disinterested property owners in your county, who will view these two roads and decide that the new road is not a vast improvement over the old. We are now macadamizing that portion that you desire macadamized, and it will be completed within a week or ten days; still, considering the adverse critism that has been made and the misunderstanding of my motives in regard to it, I desire to say that if the Board thinks, for any reason, that it would prefer to not take the proposed action, I am perfectly willing that it rescind its former action and return the deed of new road to me. I will then fence it up at both ends and forget the incident.

Regarding the charge that has been made that I am seeking this change in the road to enable me to develop certain water rights, will say that, while I consider the charge too silly to need refutation, perhaps it may not be amiss to add that I have no such intention. First, I will never be foolish enough to again embark in the water business, and secondly, it has no value whatever for a public water supply, being entirely too limited a watershed to justify any such venture. Trusting that you will take definite and final action on this matter at your next meeting, I am

Very respectfully yours,

WILLIAM J. DINGEE.

John MacBain offered the following resolution which was seconded by Eikerenkotter and unanumously adopted by the board.

Whereas, William J. Dingee and others, did heretofore petition the Board of Supervisors of the County of San Mateo, for the closing and abandoning of a certain portion of what is known as and called the Whipple Road, in the Second Road District of said County, and in and by said petition said William J. Dingee did offer and agree, upon the closing of said portion of said road, to deed to said County of San Mateo a road to take the place of the portion to be abandoned, and

Whereas, this Board before acting upon said petition did, as a body, travel over and view the road propose to be deeded and said Board did find that said proposed road was constructed in such amanner and in such location that it would subserve the public interest a great deal better than the road petitioned to be abandoned for the reason that said road was built upon the most modern engineering lines and upon said road there was and is constructed a concrete arch bridge and all water ways properly bridged and provided for, and,

Whereas, the County of San Mateo has, for a number of years, endeavored to obtain just such a road as was offered by said Dingee, and said County would have been glad to have obtained a free right of way and to have constructed said road at its own, said County's expense, and,

Whereas, the old road, and particularly that portion thereof petitioned to be closed, is so located that it could not be put and kept in a serviceable condition and has always been a source of great expense and annoyance to the County as well as to those who have had occasion to use the same, and,

Whereas, said Board at the time fixed for the hearing of said petition did take evidence as to the advisability of closing said old road and accepting said new road notwithstanding certain parties saw fit to protest and object to the proposed change, it was, and is, in the judgment of the Board of Supervisors, to the best interest of said County to accept and grant said petition and the Board at said session did so order, and,

Whereas, in the judgment of the said Board of Supervisors the said William J. Dingee in making, executing and tendering said deed of said new road to said Board County, has shown a great public spirit and has, in the judgment of said Board, in the construction of said road, bridge and culverts practically made a present to said County of property exceeding in value the sum of five thousand ($5,000) dollars now,

Therefore be it resolved, that the Board of Supervisors of the County of San Mateo, in regular session assembled, does hereby tender to said William J. Dingee on behalf of the citizens of San Mateo County, a vote of thanks and appreciation for his magnanimous and public spirited act, and be it further

Resolved, that this resolution be spread upon the minutes of this Board and that the Clerk be and is hereby directed to forward to said William J. Dingee a certified copy hereof.

Chairman Coleman strongly expressed himself as disgusted with the article in the Call reflecting on the members of the Board. That paper be declared persisted in misrepresenting the Board and it would have to stop. He was bitter in his denouncation. His views were concurred in by all the members of the Board.

WILL MEET THE DEMAND

SEQUOIA TO FURNISH GOOD COMMERCIAL TRAINING

More emphasis will be put on furnishing good commercial training in Sequoia this year than ever before in its history. For the first time a teacher has been employed who will devote all his time and energy to meeting the pressing wants of the public as to business education. Mr. Dale the teacher in charge of this department, has had five years experience in such work in the Tulare High School which last year enrolled 153 pupils. When he took charge of the commercial work in that school it was in very bad condition, and only 14 pupils were enrolled for such work. During his last year in that school 89 pupils had more or less work in the commercial department. Nor could the work be measured alone by the large enrollment which resulted largely from the success of the graduates in securing positions and filling them acceptably.

There is no doubt of the demand for well trained bookkeepers and stenographers. The Business Colleges are reaping a rich harvest from the opportunities presented to those properly trained. Our Commercial department has a large airy room supplied with tables and chairs for the accommodation of commercial pupils. It also contains a small room seperated by a glass partition for the use of pupils learning typewriting. Thus they are at all times under thhe eye of the Commercial teacher, and their time and energy are not so likely to be wasted. There is also a bank for the transaction of such business as the real banks perform. The best Business Colleges are not better housed or equipped than is this department.

The course of study is that provided by the best High Schools of the state. In the interest of true scholarship, thorough work, and the honset training of those who are students, the "go as you please method of selecting studies" can not be permitted. No fourteen year old child is able to choose his studies. Nor are they old enough to profit much from such technical studies as bookkeeping and stenography. Such subjects are introduced as rpidly as the pupils are prepared for them. But along with them must be taken such subjects as english, and history, that pupils may have a proper command of the mother tongue and enough knowledge of what has happened in the world to be intelligent employees and good citizens.

Nor do well informed business men care to employ immature children as clerks and stenographers. By the time the regular commercial course is completed the pupils are old enough to have some judgment, and enough training has been secured to make them of real use to an employer, consequently their rise to good positions is apt to be rapid. The opportunity now presented for the best commercial training ought to appeal strongly to those graduates of the High School who do not mean to enter the University or Normal Schools. They are old enough to profit to the fullest extent by their study and practice of bookkeeping, stenography, typewriting and commercial arithmetic. One year of hard work along such lines should fit them for positions as bookkeepers and stenographers at good salaries The only litation on such students is that they must take at least three full studies. To be sure the parent can send his cihld to a Business College and pay at least $100 a year beside railroad fare for instruction from teachers inferior to those who will instruct him in the home school. Several teachers from Business Colleges were applicants for the position of commercial teacher in Sequoia; but the man chosen was regarded as superior in business education and succsseful experience to any of them. We have no doubt of his ability tobuild up and maintain a commercial department which will turn out graduates who can fill positions acceptably, if the pupils are only willing to put the necessary time and energy into the work. No teacher however can make a good product out of poor material If a pupil is lazy, careless, and indifferent he will never win a certificate, much less a diploma. As the State now protects the public from doctors, lawyers and dentists who have not been properly trained, and are not deemed worthy to practice their profession, so the time is rapidly coming when stenographers and bookkeepers will be required to pass an examination as to their competency; and if not found competent they will not be permitted to try to fill positions for which they have never been properly prepared. And while Mr. Dale devotes all his time and energy to commercial instruction, the other teachers will go on training those who are to enter some profession so thoroughly that they can hope to do creditable work in some higher institution. Such pupils will continue their work in history, english, drawing, mathematics, science, latin and german. More than half of the class of 1907 will enter Stanford and the State Normal School at San Jose. While we do not expect to increase the percentage of those who go to higher schools, we do hope to thoroughly establish a reputation for doing the best work. It is probable that those who ask for recommendation to higher schools will hereafter be required to make a standing of 85 percent. Many High demand this standard, and we can not hope to rank well with a lower standard.

S. P. McCrea,
Principal.
